Summary of the comments and suggestions received from the teachers:

Some of the faculty members have mentioned that there are inadequate number of classrooms, computers, printers in the departments. Unavailability of the canteen services and poor condition of the student common room are also matter of concern for them. Some of the teachers have mentioned lack of sports facility (infrastructure and equipment), internet connectivity (Wi-Fi), ICT tools in the classrooms. The scope of pursuing research work is also limited in the college campus. Digitization of the library, with the access to the journals is needed. More attention should be paid to the basic amenities like drinking water, toilets etc. There are no toilets for differently abled people. Also, to avoid frequent power disruption in the college, installation of solar panels is very much beneficial for the institution and its stakeholders.

Conclusions drawn from the analysis of the feedback received from teachers:

- a) The teachers are mostly satisfied with the overall ambiance, safety and security, and basic amenities available in the college campus (like drinking water, toilets, canteen etc.),
- b) A significant number of the teachers are not satisfied with the facilities like library, ICT-enabled classrooms, laboratory etc. Necessity to digitize the library has been addressed by some of the faculty members. Even some of them have mentioned severe inadequacy of classrooms, computers, and printers in departments.
- c) Many faculty members are not satisfied with the scope of pursuing research in the college. Some have suggested that the college should have subscriptions of relevant journals/e-journals.
- d) Although most of the faculties are happy with the extracurricular activities of the college, lack of sports infrastructure and equipment have been addressed by some of them.
- e) Majority of the teachers are happy with the academic performance of the college.
- f) The teachers believe that the curriculum and its delivery help the students develop their knowledge, analytical abilities, skills, human values, personality etc.
- g) There are some important suggestions raised, like: installation of solar panels to avoid frequent power disruptions in the college, computers with internet connectivity (through Wi-Fi) with access to students and teaching and nonteaching staffs.
