**Organised by Students’ Welfare Committee (Cultural)**

**Date: 26.01.2023**

Saraswati Puja is the worship of ‘Goddess of Speech’ (*Vak Debi*). Students of our college organize this event all by themselves. Decoration and all the necessary arrangements are done by the students of this college every year. Though this day is marked as holiday here in West Bengal, professors and non-teaching staff normally visit the college campus during the puja. Khichuri is used to be served as Prasad after Puja. Students enjoyed the puja ceremony during the period of two days.

The event aimed to promote environmental responsibility and contribute to a greener campus. The programme witnessed enthusiastic participation from students and teachers. The Officer-in-Charge, Sri Aloke Kumar Das briefly described the importance of tree plantation to the students. Sri Debraj Das, member of Campus Beautification Committee mentioned the types and numbers of saplings to be planted. He also described to the students how the selection of saplings was made remembering the suitable soil types and climate. All of the students, teachers and non-teaching staffs planted the saplings carefully after the speeches. Some students and care takers of the college were assigned responsibility for nurturing watering and monitoring the growth of the saplings. So, the tree plantation programme was a resounding success. The active participation of the college community not only contributed to a greener campus but also fostered a sense of environmental responsibility.

**CELEBRATION OF INTERNATIONAL  
MOTHER LANGUAGE DAY 2022**

*Organized by,*

*Students' Welfare Committee*

*Date: February 23<sup>rd</sup>, 2022*

*Time: 12 PM*

*Venue: Room No. 301*

On 21<sup>st</sup> February 1952 four students were martyred while campaigning for the use of Bengali as their mother language officially in Bangladesh. It was the incident that shook the world. International Mother Language Day was proclaimed by the General Conference of the United Nations Educational, Scientific and Cultural Organization (UNESCO) in November 1999. The idea to celebrate International Mother Language Day was the initiative of Bangladesh. The UN General Assembly welcomed the proclamation of the day in its resolution of 2002. Remembering the significance Students' Welfare Committee of Kabi Jagadram Roy Government General Degree College took the initiative of organizing a programme on 23<sup>rd</sup> February at 12.00 hrs. After a long gap of COVID Pandemic it was a chance to meet the students in cultural vista. The programme was conducted in room number 301 with a limited attendance of twenty students and almost all the faculty members. Students submitted essay, recited self-composed poems, sang Corus songs. They prepared banners with famous quotation in Bengali. Teachers encouraged them for their performances and some of them also participated in the cultural programme. It was an enchanting experience for both the teachers and students.

# DEFORMATION OF CONTINENTAL CRUST: FROM SATELLITE TO MICROSCOPE

**Date & Time**  
2<sup>nd</sup> March, 2020;  
10:30 AM onwards

**Venue:**  
Seminar Hall,  
G.G.D.C, Manbazar-II

*Deformation of Continental crust is evident from the structures observable at all scales, provide important constrains on the rheology, kinematics of deformation, ambient tectonic stress conditions and other processes operating within the continental crust. It seems very likely that structures in rocks contain a large amount of detailed information. However, as amateurs, we often cannot read and interpret those information, partly because we are not trained to do so, and partly because we do not know what to look for. Here in this seminar-cum-workshop organized by the Dept. of Geology G.G.D.C Manbazar-II, an expert from the field will guide us in preparing a road map to understand and interpret the geological structures observed right from the satellite imageries to microscope.*

### About the Speaker

*Dr. Sayandeep Banerjee*

Dr. Banerjee, now serving as an Assistant Professor of Geology at the Department of Geology, Banaras Hindu University, is a young scientist in the field of structural geology. He is professionally trained to untangle the deformational history of continental crust by integrating the observations from the satellite imageries, field work and microscopic analyses. In recent times he is appreciated by the geological community of India for his work on the deformation structures of Singhbhum, Bundelkhand and Himalayan terrain.
