Call for Papers

Kabi Jagadram Roy Government General Degree College, Mejia – established in 2015 – is named after Jagadram Roy, one of the poets of medieval Bengali literature, who hailed from Mejia. His most notable work – the Adhbut Jagadrami Ramprosadi Ramayan, a transcreation of Valmiki's Ramayana – was written in the last decades of the eighteenth century.

The seminar is a collaborative venture between the college and the Department of English, Jadavpur University, under RUSA 2.0. At a time when triumphal and jingoistic nationalism and sub-nationalisms are threatening to tear asunder the diverse social fabric of this country, unitary tendencies have left the local and the regional in danger of being marginalized, appropriated, distorted, homogenized, or erased. In such cases when they do receive scholarly attention, there is a tendency to regard them as fixed or static entities, rooted and limited within their respective contexts. It is against this backdrop that the seminar's aim to bring together scholarship on local and regional nodes and networks of cultural and knowledge production assumes significance. This seminar aims to look at such regional and local cultural productions as dynamic entities, and part of a network of shared ideas and influences. We therefore solicit proposals which pay attention to the processes of production as well as those of transmission, interpretation and adaptations of cultural practices.

Sub-themes

- orality, orature
- pre-print literacies
- folklore and folkways
- endangered cultural practices
- local spaces of performance
- local/ regional histories
- Local/regional physical culture or any sport
- Local/regional art,craft.
- resisting the metropole
- Indigenity, ethnicity, majority/minority.

These sub-themes are merely indicative and any other themes related to the topic are welcome.
