Participation:

An overwhelming presence of 16 participants (teachers, students and others) from different institutions was an asset of this one-day career counseling programme on Goods and Service Tax.

Objective:

Goods and Service Tax (GST) eliminates tax barriers between states, promoting seamless movement of goods and services. This not only benefits businesses but also fosters a more competitive environment, potentially leading to lower prices for consumers. But GST is more than just streamlined taxes. It has boosted transparency in the economy. Businesses can now claim credit for taxes paid at earlier stages, reducing the overall tax burden. This incentivizes formalization and discourages tax evasion, ultimately leading to increased government revenue. Looking ahead, GST holds immense potential. As the system matures, we can expect further improvements in tax administration and compliance. The GST is a bold reform that has significantly impacted the Indian economy. While there are ongoing adjustments, the long-term benefits of a unified tax system, transparency, and a more competitive market are undeniable. GST is a game changer, and its impact will continue to shape India's economic journey in the years to come. In this scenario, the students from the Department of Commerce and Department of Economics will be benefitted and can be able to get better employability opportunity from this programme.

Outcome:

- Several aspects of GST are discussed in this programme
- The event aided the participants to aware employment opportunity
- Participants had a chance of fruitful free interaction with the professionals during the Pandemic.
- Students can be able to share his personal experience to motivate the learners.
